Harman Technology
Limited

Project

Contract Manufacturing
Literature

Discipline

Creative

Description

As well as its own brand HARMAN technology manufacture photographic papers for other world leading companies and they wanted to demonstrate their capabilities through some corporate literature. Naturally they approached Manifest to provide the design solution.

Execution

Manifest developed the corporate strap line Inspired by Imagination, Shaped by Science and this set of literature had to reflect just that. Demonstrating a combination of both technical and creative abilities the literature pack used technical imagery with strong colour coding and tight typography.
