Description
HARMAN technology owners of the famous ILFORD Photography products were looking to launch an inkjet paper range and came to Manifest to develop the packaging.

Execution
HARMAN's ILFORD box is iconic across the globe and they were looking to develop a box with as much impact and presence for their inkjet range. Manifest's option used the same ILFORD font but as this is an inkjet product we also focused heavily on colour imagery to create a simple but stunning result.

Deliverables
Packaging
Branding & Visual Identity
Graphic Design

Work.
