TSK

Project

The Nucleus Internal Graphics

Discipline

Creative

Description

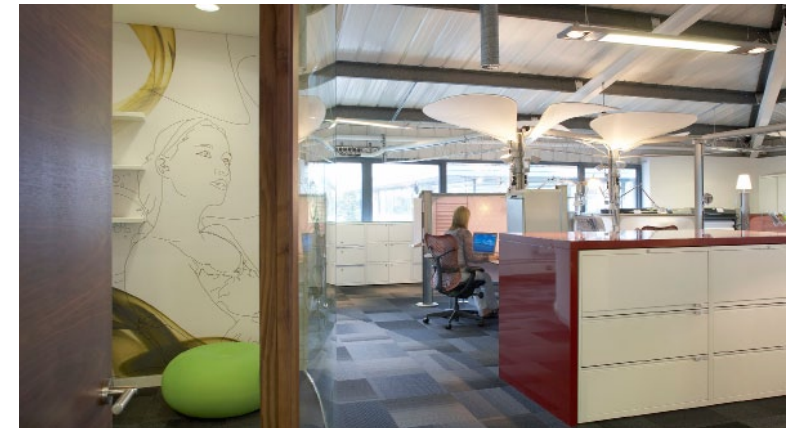

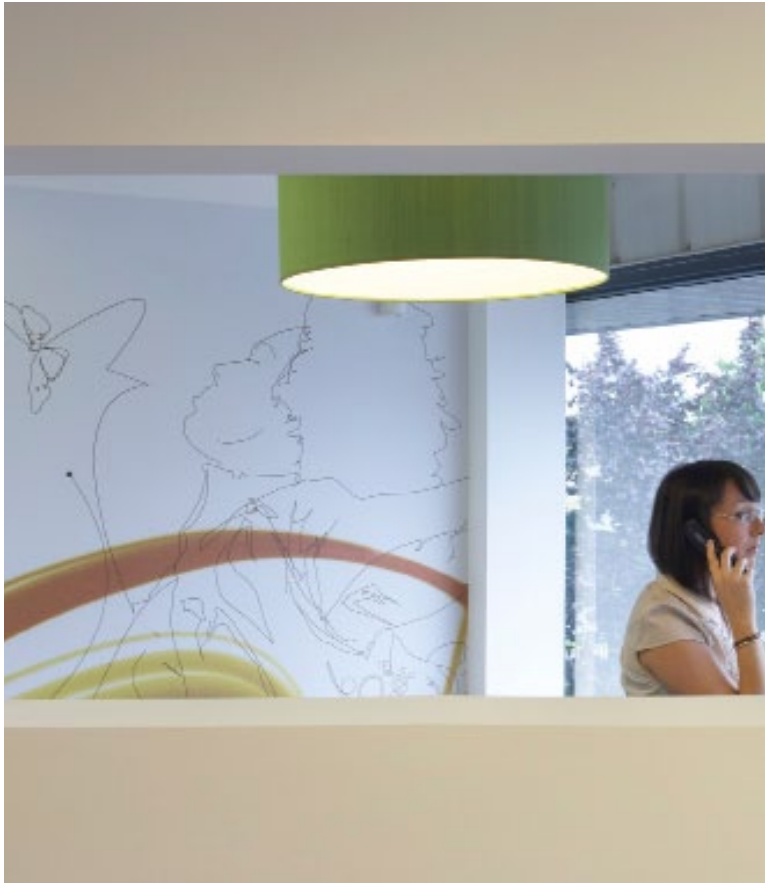

In an extension to the usual work we have done for retained client TSK, we were asked to look at the internal branding of the company's newly refurbished offices.

Execution

In all previous work Manifest had developed a flowing graphic style linked to contemporary illustration and this theme was extended through TSK's offices. The result was a stunning internal environment that wowed staff and clients alike.

Deliverables

Graphic Design
Illustration

Work.
